Technical Skills

- **Languages:** Python (Pandas, NumPy, Matplotlib), SQL (PostgreSQL), JavaScript, HTML/CSS
- **Tools & Platforms:** Power BI, Excel (Advanced), Google Apps Script, Google Workspace Integrations
- **Concepts:** Data Cleaning, Relational Databases, Dashboard Design, Web Scraping, API Integration

Data Developments & Projects

[Zara's Baking Shop Management System](#) | Google Apps Script, JavaScript, Google Workspace

- Developed a custom web application and centralized database for a local bakery to streamline daily operations.
- Automated complex cost, profit, and pricing calculations based on dynamic recipe modifications.
- Built an order management interface that bridges Google Drive catalog imagery with active customer requests.

[Brazilian E-commerce Supply Chain Analysis](#) | Python, Pandas, Data Visualization

- Analyzed a massive e-commerce dataset spanning customers, products, payments, and geolocation data.
- Identified logistical bottlenecks and consumer purchasing trends through extensive data wrangling and visualization.

[HR Analytics Dashboard](#) | Power BI, SQL, Data Modeling

- Designed an interactive workforce management dashboard by cleaning, transforming, and relating four disparate HR datasets.
- Implemented automated data modeling relationships to visualize employee retention, performance, and demographic metrics, allowing for seamless self-service reporting.

[Age of Empires IV Tournament Platform](#) | Google Apps Script, JavaScript, HTML/CSS, Telegram API

- Engineered a full-stack e-sports tournament dashboard supporting an active user base of 30+ players.
- Designed a multi-dimensional Google Sheets database to track live match statistics, player Elo ratings, and betting ledgers.
- Integrated a custom Telegram bot via webhooks to automate match announcements, user registrations, and live polling.

Professional Experience

English Teacher & Educator | Esfahan, Iran | 2018 – Present

- Leveraged strong communication and presentation skills to translate complex concepts to hundreds of students in both public-school systems and private institutes.
- Managed performance data, grading metrics, and progress tracking for large classrooms.
- Demonstrated high adaptability and problem-solving capabilities in dynamic, fast-paced environments.

Education

- **Bachelor of Science: English Teaching**, Farhangian University (Shahid Bahonar Branch, Arak, Iran)
- **Certificate: Statistics for Business Analytics**, MaktabKhoone Learning Platform

Languages

Persian (Farsi): Native | **English:** Fluent | **French:** A2
